PROJECTS

myTime: https://github.com/twistedx/timecard-app | https://timecardstaging.herokuapp.com/
- The myTime app was built to keep track of timecards for freelancers and to give clients a way to feel more secure with what they are paying.
- My responsibilities with this project were conceptualization of the app, UI/UX, database set up + manipulation, and management + organization of team members
- Mongo Db, Express, React, Node, HTML5, CSS3, Javascript

Burgertown: https://github.com/twistedx/timecard-app | https://timecardstaging.herokuapp.com/
- Burgertown is an app that is meant to allow you to build your own burgers with a GUI and store them until they are 'eaten'.
- I was given a prompt and had to create, design, and build the app full stack.
- MySQL, Express, Express-Handlebars, Node, HTML5 CSS3, JQuery, Javascript
